## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments, see Remarks, filed 2/8/2006, with respect to claims 1-6 have been fully considered and are persuasive. The rejection of claims 1-6 has been withdrawn.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eugene Thigpen on 4/10/2006.

The application has been amended as follows:

The section of claim 1 that previously read "performing residual migration velocity analysis in the depth-offset domain at the least one selected horizon, the analysis including calculating depth residual with respect to offset; and" with be amended to read:

"performing residual migration velocity analysis in the depth-offset domain at the at least one selected horizon, the residual migration velocity analysis including calculating depth residual with respect to offset; and"

### ***Allowable Subject Matter***

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior art does not disclose that the residual migration velocity analysis recited in claim 1 includes calculating depth residual with respect to offset. The closest prior art taught a type of depth-offset residual migration velocity at a selected horizon. The closest prior art taught that the analysis was performed with respect to ray parameter instead of calculating depth residual with respect to offset and then mapping into the depth-offset domain.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott A. Hughes whose telephone number is 571-272-6983. The examiner can normally be reached on M-F 9:00am to 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Keith can be reached on (571) 272-6878. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
